Club merchandise order is almost full and ready to go. Don't miss out.....there won't be another order for a while. Contact Jenny to order one of the smart new shirts drawing attention wherever we go! Shirts are available for members at \$44 each. Hats are \$12 each. Payment is required with order.

President's Report

Hi Everyone,

Had the chance to go to the Auto One Car meet at Kawana recently. It was a good night, casual, lay back, just talking to people about their cars and giving my car a good run. I personally enjoy this sort of outing, that's why I suggested we make it a standard club meeting spot for those of us who are on limited Rego and in addition to normal club events. It just gives us more options to drive our cars.

I was also in Brisbane last week-end; my brother-in-law suggested I come with him to the local newsagency to get lotto. He told me of a meeting of car enthusiasts, who meet at this car park for a couple of hours every Friday night. It was impressive with a huge range of cars from hot 4's to classic muscle cars. Many clubs have these meeting places in their newsletters, and are becoming very popular. Lets us know what you think next meeting.

Don't forget Darryl's Observation Run on the 25th August, 9.00 am Clubhouse.

Cooroy Car Show is getting closer and things seem to be running along nicely. There are still jobs to be done, so put your hand up if you can help. Hope to see you at the next club event.

Take care, drive safe.

Jeff.

Club Meeting Minutes – 5th August 2013

Meeting Opened	Jeff Langton opened meeting at 0710 pm
Apologies	Steve Cadogan
New Members	Nathan Webster (Holden 2002 VE SS Ute) and Damien Baker. We welcome both you and your families to our Club.
Visitors	Bruce Dickson

Rob's Bit

I joined the Pomona auxiliary Fire Brigade in May 1979 at the time the Noosa and Hinterland Fire Brigades were going through an upgrade phase.

The first permanent fireman appointed to the area was Bob Eldridge. One of his duties was to go around the brigades to train the men. Bob's base was the fire station across the Donnella Bridge on the water front at Tewantin. The other stations were Cooroy and Pomona.

It was decided to build the new you beaut station up at The Junction in Noosa. Two councillors, who were farmers from Cooran, didn't approve the plans for the new building. I remember Bob saying, "What would a farmer know about building a Fire Station?" Guess what? For years the roof leaked like a sieve and the government spent hundreds of thousands of dollars fixing the mistakes when the station was built.

Vehicles at the time and pride of the fleet - the 1970 Limited Dodge with Chrysler V8 petrol engine which belongs to the Noosa museum at Pomona and arrived back May 2012. At the Tewantin Station was an 11/2 ton Willies four wheel drive. Cooroy had a Ford F250 with a six cylinder petrol engine which is now used by Boreen Point Bush Fire Brigade. In Pomona we had a 1955 J series Bedford four wheel drive, windscreen, no cab. We also had an 11/2 ton Willies four wheel drive. The SES still have one of these; the other one is in the museum at Strathpine. After the new Noosa station was built they received two new ACCO International fire engines, V8 petrol, fully enclosed crew cab. Pomona got the Dodge, the Bedford went to the old Tewantin Station. A chap by the name of Adrian cared for her.

We went to many jobs with the Dodge. If there was a training night down at The Junction, we would drive the Dodge down and back with a full tank of water, 300 gallons, just as a taxi. Of course, if there was a call out we would just go.

We almost lost a fireman one time to serious injury. We left the station early in the morning heading out to the highway to a semi roll-over. The Dodge could fit under the railway underpass, however the radio aerial could suffer damage so whoever was in the crew seat would reach up to fold the aerial down. Bruce got up to put the aerial into the operating position as we drive around a sharp right turn and fell out onto the bitumen. We alerted the ambulance and continued out to the job leaving someone with the seriously injured Bruce.

For years the powers to be stayed with petrol powered fire engines. The reason being, on cold winter nights a petrol engine would start up and get going quicker than a diesel. Diesels back in the sixties were quite sluggish but the Japanese engines put a stop to that. Petrol engines are risky in very hot conditions, the liquid turns to a vapour and you don't go anywhere. Before I left the Pomona Brigade, Noosa received a late nineties Mitsubishi, the first diesel fire engine. One night we got called to a house fire out at Skyrings Creek. Away in the Dodge we went. The weather was quite wet down across the creek and up to the fire, but we had no dramas. The permanents came up from Noosa in the Mitsubishi diesel. They became bogged before they crossed the creek.

Rob and the Dodge Fire Engine

Car Club Runs

Old Bruce Hwy / Gympie Loop to Apollonian Hotel Boreen Point Sun - 23rd June

Members who went on this run haven't stopped talking and saying what a great day this was. The drive through the Cedar Pocket area seemed particularly enjoyable and worth including again in a future run. The Club cars drew lots of interest and admiration from the lunch-time crowd at the Apollonian Hotel at Boreen Point where we stopped for lunch.

This was the first club run for Cliff Watson and his Corvette. Welcome to the Club and thanks to Cliff for taking photos on the day. We are more than happy to received photos from other members who are shutter happy!

Balmoral Park / Dam Sun – 22nd July

What magnificent weather for a winter run! Patrick led a slow cruise down the Bruce Hwy to Nambour, up the range, through Mapleton, Montville and across to Balmoral Park. Afer enjoy morning tea, the sunshine and view across to the coast, it was back in the cars to Lake Baroon for lunch. John lit the BBQ and eventually got enjoy his steak while the rest of us unpacked picnic lunches. The afternoon was spent idly kicked-back on the grass, overlooking the picturesque dam, soaking up the sunshine, sharing good company and conversation before climbing back into our cars to cruise home at our own leisure. What a way to spend a winter Sunday!

Featured Vehicle

Featured Vehicle – 1955 Holden FJ Ute Owned by Alan and Ann Kenzler

The Details

Model	1955 Holden
Body style	Ute
Colour	Harcourt Green
Engine	Original 132 cu in grey motor 21.6HP
Interior	Original upholstery

This 1955 Holden FJ Ute was bought by Alan and Ann in 1989. The vehicle is basically original including the original grey motor and interior upholstery. In 2000 the exterior was stripped to bare metal and was repainted in the original Harcourt Green colour.

Alan and Ann's passion for their FJ is evident in the presentation of this vehicle – and the recognition they have received in the *State Ute Muster Series*. In 2012 they took out the *Classic Ute Class* in the *South Burnett Sub-chamber State Ute Muster Series* and went on to win both the *Classic Ute Class* and *Overall Champion* at the state finals at the *Royal Queensland Show (the Brisbane Ekka)*.

They have continued their success by taking out the *Classic Ute Class* in the 2013 *South Burnett Sub-chamber State Ute Muster Series* and are off to the *Brisbane Ekka* again this year. Congratulations and all the best for another successful year at *The Ekka!*

Also look out for Alan and Ann's Ute at the *Nanango Car Show* on Saturday 24th August 2013.

Bunnings Sausage Sizzle

The Club had its second sausage sizzle at Noosa Bunnings on Saturday 29th June. Wet and inclement weather meant a slow start to the day. Early on there seemed more club members than customers! However as the weather cleared and the Bunnings car park filled, the smell of sizzling sausages and onions soon had people lining up. Some customers found one just wasn't enough!

Thanks to Steve, Jenny & Rob for co-ordinating the event; and to the band of Club members who volunteered at various stages through-out the day to help in whatever way they could. It was a fantastic turnout. Also thanks to the businesses who supported us and to everyone who stopped to buy a sausage and drink.

For Sale

WB Statesman 1984 De Ville

- Good original condition inside and out
- Petrol & gas
- Air conditioning, power steering and 4 wheel disc brakes
- 6 months rego
- \$3000
