ALL TORQUE

## Club Run

July 2017

A huge thanks to Darryl and Bea for organizing and running the Observation run on June 18<sup>th</sup>. Though some of us got dizzy counting memorials, there were smiles on everyone's faces as we all worked through the clues, with some lucky enough to claim a prize at the end AND keep their marriages!

# What on Earth?!

The second rarest car in the world is the 1921 Helica by French manufacturer, Marcel Leyat. Only 30 of them were ever made, to a truly unique design. The body was made of plywood, and passengers sat in single-file, so it was called the 'plane without wings'. Because it only weighed about 250kg, it could reach speeds of around 250km/hr – mind-boggling for the time. The remaining handful belong to private collectors; and one in good nick would sell for \$20 million! Start saving!

# Helping Others

LifeFlight used to be called CareFlight. It is a world leader in aero-medical care and Australia's most diversified service with both a fixed and rotary wing fleet.

LifeFlight helps seriously ill and injured patients around Australia and the world to quickly get the medical care they need. From rapid response, to inter-facility transfers, their team of more than 400 staff members, including aviation crew, support staff, and over 100 doctors are a lifeline to vulnerable individuals.

**Across Australia LifeFlight doctors attend to more than 10 patients a day.**

As a leading Australian charity, LifeFlight operates 13 rescue helicopters and three air ambulance jets across 12 locations. Eight of these are LifeFlight's own aeromedical bases. LifeFlight also assists Retrieval Services Queensland with doctors, when required, on fixed wing aeromedical services, including inter-hospital patient transfers performed by the Royal Flying Doctor Service to and from regional centres such as Brisbane, Bundaberg and Townsville.

The staff are specially trained in pre-hospital retrieval medicine through LifeFlight's internationally recognised training academy.

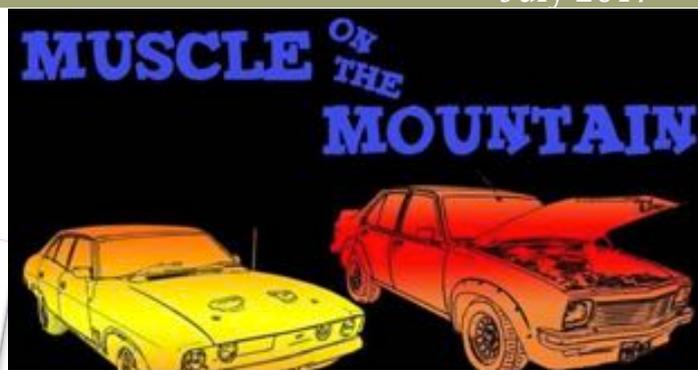

**LifeFlight has flown 45,000 critical rescue missions over the past 36 years.**

Serving both the community and industry clients, LifeFlight operates a charitable service and 'profit for purpose' commercial enterprises that help fund our charitable activity. Surplus profit from our social enterprises are used to make sure our community helicopters remain on standby 24 hours a day, everyday of the year.

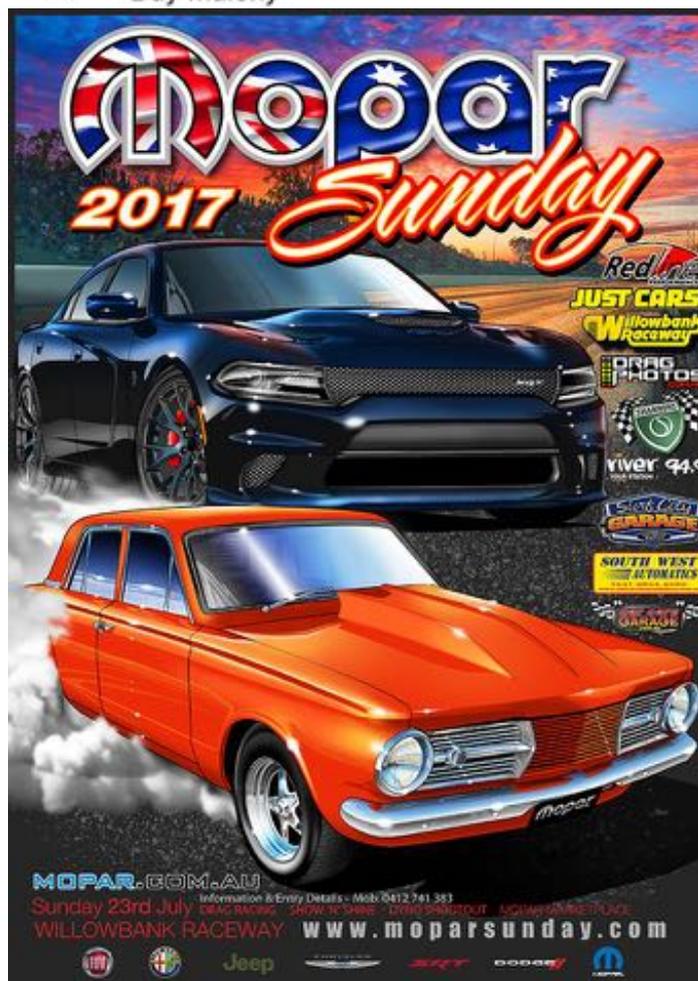

It is wonderful to know that some of the funds raised through our members' hard work at the car show have gone to supporting such a worthy cause.

## Minutes of last meeting 5<sup>th</sup> June 2017 (continued)

### General Business (continued)

\* Chris Jude a visitor from Noosa Strade Bianche asked the club members if they were interested in helping out with the Vintage Bike Ride again this year, which will be held on Sunday 13 August 2017. Cliff Watson **Moved** that our club will be again involved in this event **Seconded** Alan Springate **Carried**

\* Chris Jude congratulated our Club for our great job of holding the Noosa's Classic Steel Pitstop. The Pitstop held on Friday 3 June was a bit slow with the sausages but was overall a great success with about 40 display cars. One of the loudest cars in the world was there; it was very popular. Julian Spadavecchia thanked all members who help with the Pitstop. Members please come and help by cooking sausages and also purchasing raffle tickets. There are always great prizes that are donated by Autobarn. Also a big thank you from the club to Julian for all his help with the Pitstop. A HUGE Thank You to Mick and Karina Jones the owners of Autobarn Noosa and their Manager Bodhi Purcel for everything they do to help out our club.

**Meeting closed** 8:36pm

**Next meeting** Monday July 3<sup>rd</sup> 7pm

Club member Jeff Langton spotted his "dream car", a 1972 V12 E-type Jaguar at June's *Noosa's Classic Steel Pitstop* and snapped the photo at right for the rest of us to enjoy.

Julian Spadavecchia has done a great job with this monthly event, but it needs everyone's ongoing support – so go along, have a sausage and buy a raffle ticket.

One of the many benefits of joining the club is being able to ask other members for guidance. Above, Andy sought advice from Cliff and Darryl with regard to his 1967 HR Holden, after the June club run.

We'd like to gratefully acknowledge all of the assistance our club receives from Autobarn Noosa. We are indebted to owners Nick and Karina Jones, and manager Bodhi Purcel – thanks for everything!

While we're at it, we'd also like to give a huge shout out and thank you to Alan Perry, who is sorting out problems with the electricity in the clubhouse tripping. Alan isn't even a club member, but is doing this work gratis. We really appreciate his support.

# ROB'S BIT

## “ANZAC Day 2017”

After ten years of blood, sweat and tears, my dream came true. Driving the wrong way in Mary Street with my ninety-seven year old uncle in the 1942 Ford Jeep. I didn't used to know a lot about Jeeps but things have changed now.

I remember years ago when I was in Junior Farmers. I had driven to Gympie one night, but the meeting I was supposed to go to had been cancelled; so I'd decided to go to the pictures. The theatre was opposite the Town Hall. “Kissin’ Cousins” was the film; and it featured Elvis Presley driving a Jeep along a mountain road, singing “Blue Misty Mountains.”

*We're sure everyone is happy to see the return of “Rob's Bit”. We are always on the lookout for interesting stories about vehicles that members have owned and/or admired over the years. If you have a story to tell, and a few photos to share, please email them to [mrs.wicket@gmail.com](mailto:mrs.wicket@gmail.com) or give Andy a hard copy at a meeting. – Ed.*

Harold Bazzo built a servo in Pomona in the fifties, which was next to the Majestic Theatre. He needed a vehicle for running errands around town. He got a Jeep and stripped it down to the last nut and bolt. I saw him out in the paddock painting the chassis; and it wasn't long before he had it going, hooning around town in top gear, as fast as possible.

The body of my Jeep came from Aramac, a country town west of Rockhampton. Most Jeeps around here were used to go fishing on the beach. That salt water was bad news for vehicles.

Arthur Spickett had a Jeep on his Louisville farm for fifty years. I didn't get his Jeep but did get a truckload of spare parts from him. Many people helped on the journey of restoring my Jeep, including my neighbour Shane. He loves playing with old vehicles but his is not as old as mine.
