

# Combined Coastal CAR CLUB

ALL TORQUE

September 2017

We left the Club House in Convoy – 8 cars and headed to Mark's shed and looked at his cars, before driving down the highway to Meales Concrete Pumping's Shed. After looking at Trucks and Machinery, we enjoyed the morning tea Rob and Jenny had set up. We then went off to Gary Robinson's shed to check out his project; and finally down to North Shore Tavern at Mudjimba for lunch. Everyone enjoyed their day out. Huge thankyou's to Mark Melville, Rob and Jenny Cowley and Gary Robinson for their hospitality.

The lack of an August newsletter was due to illness and family commitments. Please note that this edition contains copies of the July and August meeting minute.  
Sincere apologies. – Lyn.

The Fuldomobil first appeared in 1950 in Germany. The original vehicles had an aluminium paneled body fixed onto a wooden frame but as steel became easier to get hold of later versions featured an all steel body. The Fuldomobil's rear wheel was powered by a number of engines ranging from a 200cc up to a 360cc Sachs engine.

The Fuldomobil was built under license in many countries including the UK, Greece, India and Chile and was known as The Nobel (UK), The Attica (Greece), The Bambi (India) and the Hans Vahaar (Chile). From 1956 the vehicle was also available as a 4-wheeled car. In the UK The Nobel was financed by Cyril Lord and had a chassis that was built by Harland & Wolf, Belfast (They also built the Titanic) unlike the original Fuldamobils it had a fibreglass body courtesy of the Bristol Aeroplane company.

The Nobel was powered by a Sachs 191cc two stroke engine driving the rear wheel which gave a top speed of approximately 50-55mph with 60mpg. Nobels were produced from 1959 to 1961 and approximately only 20 or 30 vehicles are known to have survived. Did you know that the front seat could be folded down to form a bed so you could camp...

# Helping Others

## Shoes & Socks 4 kids Program

The Shoes & Socks 4 Kids program provides high quality leather BATA shoes and 3 pairs of Underworks socks free of charge to Australian kids living in poverty.

Disadvantaged children turning up at school with no shoes, worn out or inappropriate footwear is an ongoing problem for schools throughout Australia and can result in the child, for health and safety reasons, being excluded from school activities and sports - or worse, even sent home.

Different solutions have been tried in the past with little success. In extreme cases, some schools actually have tried buying shoes and lending them to disadvantaged kids for the duration of the school day only. These solutions have been less than successful. Disadvantaged children often feel too humiliated to go to the school office and borrow second hand shoes that have been worn by other children. They can often be the subject of cruel teasing and taunts by other children for wearing "school borrowed shoes", no shoes at all, or worn out shoes that are held together with staples or tape.

The Shoes & Socks 4 Kids program also works to address another serious issue in schools – poverty related absenteeism. When the weather is cold or wet, it is difficult for children to concentrate and learn in class when – because they have no shoes or inadequate shoes - their feet are cold and they feel miserable. It is often easier to simply stay home. Another consequence of children turning up at school wet and cold is a higher incidence of illness resulting in yet more absenteeism and lost learning time.

It's fantastic to know that some of the money raised by our show goes to helping to ensure all Aussie kids get what they need to set them up for a good education.

## Multi-club cruise

Good turn out at the Rusty Ute Cafe, which raised money for Suicide prevention. It was a great run and the weather cleared up fine! Thanks for all that went and I know that a few were down with the flu 🤒  
So please take care while I am in the USA 🇺🇸 (am going to a car show in LA as well) as seeing the Solar eclipse and NASA, your president Cliffy.

## Noosa's classic Steel Pitstop

I'd like to thank all that came to the Classic Steel Pit stop. It was a good turn out and we had a coffee van on hand. The raffle prizes were excellent and the people were great! Again I would like to thank our sponsors Noosa Autobarn, Claytons Towing, Noosa Graphica; and Master Meats Noosa Civic for their great snags!

Thanks to president Cliff Watson for these fantastic photos from his recent trip to the USA, where he was shocked by low fuel and vehicle prices; and went to a show in Rogersville Tennessee.

I'm sure everyone has enjoyed hearing about Cliff's travels. We are always on the lookout for interesting stories about our members and the vehicles they love. If you have a story to tell, and a few photos to share, please email them to [mrs.wicket@gmail.com](mailto:mrs.wicket@gmail.com) or give Andy a hard copy at a meeting. — Ed.
